OKLAHOMA CITY, March 14.—  
The conference road bill will prob-  
ably be reported out tomorrow  
morning.In expectation that it would be re-  
ported out today, a great many citi-  
zens who came here from various  
parts of the state to enter their pro-  
posals or offer their advice in regard  
to the measure, remained over to wait  
until the morning.Senator C. W. Hoard, chairman of the  
senate committee, said today that the  
amount of detail work in con-  
nection with the various routes has  
made it impossible for the stenog-  
raphers to complete the report in  
time for presentation today.The senate put back in the appropria-  
tion bill the appropriation for the  
corporate commission, which was  
yesterday, on motion of Senator  
Johnson, referred to a special com-  
mittee. The provision of the bill re-  
lating to the creation of the office of  
attorney for the state banking board  
and one for the school land de-  
partment were also accepted by the  
senate today. These officers carry  
salaries of \$1,500 each.A bill by L. E. Neff, providing for  
compulsory inspection of steam bot-  
tles of over 15 pounds gauge pres-  
sure, was passed by the house of  
representatives this afternoon by a  
vote of 59 to 7. It was argued in be-  
half of the bill that compulsory in-  
spection by the state inspectors would  
eliminate carelessness and pre-  
vent accidents.Neff's bill No. 132 providing for  
the appointment of state referees  
who are to be district and superior  
judges and fixing their salary at  
\$1,000 a year, was also passed fi-  
nally by the house, the vote was 60  
to 11.A hard fight was made in the  
house on the bill by Hildison of  
Tulsa, and Neff and Disney of Mus-  
kogee, which makes district and su-  
perior judges ex-officio referees and  
raises their salaries from \$3,000 to  
\$1,000 a year.Representative Tom Knight of  
Claremore was one of those who  
opposed the measure. "If you raise  
the salaries of the referees, you are  
giving them more money than they  
are worth," he said.The bill authorizes judges to take  
testimony in hearings on complaints  
before the various commissions, sit-  
ting as referees. The judges are  
pointed for these duties to be named  
from the district nearest the point  
at which the testimony is to be taken.

## FREEDOM'S FRIENDS

We have spoken through our guns.  
They have shrieked our love of right.  
We have spoken through our sons.  
They have guarded our battle of life.  
We have told the crushed and weak  
That we gave no selfish ends.  
Now for justice let us speak.  
Through the glory of our deeds.  
On the far-flung battle line  
We have battled for the truth.  
As a pledge for all that's fine  
We have sacrificed our youth.  
We have fought as freedom's friend.  
Now the thundering cannon cease  
And the warfare at an end.  
Let us live as brave in peace.In the heat and pain of strife  
And the tumult of the fight  
We have battled for the truth.  
And have reaped the expressed,  
And we boasted that we sought  
Only justice for the right.  
Let us live as brave in peace.  
Now the battle flags are furled.We have written it in blood  
That for justice we will die.  
We have braved the ocean's roar  
And the fury of the sea.  
We have pledged ourselves to seek  
Only justice for the right.  
Let us live as brave in peace.  
Now the battle flags are furled.

Fuel Administration Urges  
Retention of Methods Dur-

oil producers, refiners, distributors  
and other petroleum interests of  
America, Mexico and Canada, at a  
meeting here today, organized the  
American petroleum institute, de-  
signed to be to the petroleum indus-  
try what the American iron and steel  
institute is to the steel industry. The  
objects of the institute, according to  
the by-laws adopted, are:"To afford a means of co-operat-  
ing with the government in all mat-  
ters of national concern."  
"To foster foreign and domestic  
trade in the American petroleum  
products."  
"To promote in general the inter-  
ests of the petroleum industry in all  
its branches."Membership in the institute will  
be restricted to residents of the  
United States, Canada and Mexico  
who are engaged in the petroleum or  
allied industries. For the first year  
the board of directors will consist of  
the 25 members of the national petro-  
leum war service committee.NEW YORK, March 14.—Captives  
co-operation between the oil indus-  
try and the government on a  
peace basis, with the value of the  
war efforts of the industry as a  
guide, was urged in a letter from  
Fuel Administrator Garfield to the  
National Petroleum War Service  
committee read here tonight at a  
dinner in honor of A. C. Bedford,  
the committee chairman, who has just  
received the decoration of the chev-  
alier of the Legion of Honor from  
the French government.Administrator Garfield thanked the  
war service committee for its  
ready response "to the call to serv-  
ice" by the government. He said  
the supervision of the industry re-  
quired under the Lever act and by  
executive order of the president  
might have been rendered exceedingly  
difficult, but that the relations es-  
tablished between Mr. Bedford,  
general director of the oil division of  
the fuel administration, and Mr. Bedford,  
chairman of the National Petro-  
leum War Service committee, guaran-  
teed cordial co-operation, which  
has marked the relations be-  
tween the government and the indus-  
try from the first."I cannot allow this occasion to  
pass without," Mr. Garfield, "without  
expressing the earnest hope that the  
spirit of co-operation thus estab-  
lished between the government and  
the industry—might rather say be-  
tween the public, represented by the  
government, and the industry—  
should be continued in some effective  
way."

to the state department today by  
Minister Reisch at Peking. The  
minister said he had sent first

was said that the Japanese consul

the guilty would be punished and a

forces will retain part of the Berlin  
suburb of Lichtenberg and are stub-  
bornly resisting the government  
forces, an Exchange Telegraph dis-  
patch from Copenhagen says. Fight-  
ing is continuing in Lichtenberg and  
also in the Karlshorst.Numerous persons have been  
killed and wounded in the fighting.  
Many buildings have been destroyed  
by bombs.The dispatch says that only a few  
messages are reaching Copenhagen  
from Berlin and that these are de-  
layed.By The Associated Press.  
BERLIN, Wednesday, March 13.—  
Twenty-four members of the defunct  
people's marine division were sum-  
marily executed yesterday as the re-  
sult of their attempt to make an  
armed attack on government troops  
in the building in a downtown sec-  
tion of Berlin where the officers of  
the division's paymaster were lo-  
cated. In addition, 250 members of  
the former sailors' guard were ar-  
rested and imprisoned to await the  
action of a military court.The whole procedure was the re-  
sult of a clever coup by men under  
Gustave Noske, the minister of de-  
fense. When he was informed of the  
location of the treasury of the mar-  
ine division and of the fact that  
Tuesday was payday for it, he pro-  
ceeded to occupy the quarters in the  
early morning hours. The marines,  
who previously had been in hiding  
for several days, soon began to ap-  
pear for the purpose of drawing their  
pay. They were promptly ar-  
rested, searched and conducted under  
heavy guard to the Moabit jail. Two  
dozen of the men who attempted  
armed resistance were promptly  
shot.The paymaster's quarters were  
found stocked with munitions, dum-  
mies, cartridges, machine guns and  
hand grenades. The funds in the  
treasury were seized. The identity  
of the marines was fully established,  
as all of them carried time books.THIS IS LAST DAY

building will be crowded with tax-  
payers.Those who have executed the  
blank forms and know the amount  
of their taxes may mail their report  
with check to cover the first quar-  
terly payment. To relieve the con-  
gestion at the collector's office the  
officials urge that reports be mailed  
in preference to being brought or  
sent to the office. This will give the  
clerks more time to wait upon those  
who have not yet obtained the blanks  
or who are unfamiliar with the man-  
ner of making them out.Reports deposited in the postoffice  
at any time during the day will be  
received and the postmark will pro-

which applies after March 15.The collection of the income tax  
will take a large sum of ready cash  
from the Tulsa bank. Oklahoma is

it is estimated that 50 per cent of the  
state's share of these taxes are paid

## GOVERNMENT PUSHES CASE

District Attorney Robertson  
Declares Efforts Will Be  
Renewed by Prosecution.WICHITA, Kan., March 14.—The  
trial in federal court here of 12 mem-  
bers of the Industrial Workers of  
the World, charged with violation of  
the espionage act, which was attract-  
ing wide attention because of the  
prosecution's announcement that it  
would endeavor to show a plot to  
overthrow the government, came to  
an abrupt conclusion today when  
Judge John C. Pollock continued the  
case in the September term of court.  
Judge Pollock, in ordering the  
continuance, announced that he de-  
sired ample time to consider motions  
filed by the defense to quash the in-  
dictment.The trial began Wednesday and a  
jury was selected the first day.  
Thursday was given over to argu-  
ments by both sides on the defense's  
motion to quash the indictment.  
The men were arrested in Novem-  
ber, 1917, and have been in jail ever  
since. An attempt several months  
ago to bring them to trial failed be-  
cause of technical defects in the in-  
dictment.A jury to hear the cases had been  
agreed on and was ready to be  
sworn when the attorney for the de-  
fendants filed the demurrer and  
motion to quash. Yesterday was  
spent in arguing the motions and the  
matter was taken under advisement  
until this afternoon when the con-  
tinuance was ordered.The defendants' demurrer to the  
evidence and motion to quash the in-  
dictment and free the accused men  
were based largely on technical  
points many of which were said to  
be new. The main point of conten-  
tion by the prisoners was that the  
charges against them did not fit the  
venue or place of the alleged con-  
spiracies. Others were that the  
government unlawfully raided their  
offices and captured letters, files  
and various documents which it is  
using against them. This, the de-  
fendants claimed, was equivalent to  
requiring the accused men to tes-  
tify against themselves. They at-  
tacked also the constitutionality of  
the espionage act and claimed that  
they are alleged to have attempted  
to interfere.Counsel for the government con-  
tended that the indictments were  
valid. The constitutionality of the  
act and that the government was not  
required to name the places at which  
the alleged conspiracies were made  
for the reason that it would be im-  
possible to do so."I do not want anyone to get the  
idea that the continuance of the I.  
W. W. case means an abandonment  
by the government," said District  
Attorney Fred Robertson this af-  
ternoon. "It simply means renewed  
energy for us. The defendants in  
this case will be prosecuted, no mat-  
ter how long it takes."

company was informed of the receipt  
of the above telegram last night. He  
stated that his company had experi-

city may obtain a wholesome  
and adequate supply of water.Following are some of the ex-

Central National bank—"We  
must have this water regardless  
of the cost."Dr. S. G. Kennedy, member  
chamber of commerce special  
committee—"The best is not too  
good for Tulsa and we must  
have it."Judge George E. Warren, rep-  
resentative of the laboring people—"The  
laboring class will put  
over the bond issue for this  
project."Mayor C. H. Hubbard—"It is  
well known that I am vitally in-  
terested in securing the best wa-  
ter for Tulsa."H. O. McClure, president of the  
school board—"The present bad  
water is a great detriment to pro-  
gressiveness of our schools.""Whenever you are ready to  
vote bonds for installing the Spavi-  
naw water system the laboring  
men will put it over, and if you  
don't want it put over, don't let  
the laboring class hear about it.  
And let all those who would op-  
pose it get busy at once for the  
labor men are for it," Judge G.  
E. Warren.By a standing vote at a mass meet-  
ing of some 200 members, held Fri-  
day night at the municipal auditor-  
ium, the Tulsa chamber of com-  
merce expressed itself as unani-  
mously in favor of obtaining for the city  
and its posterity the best water, re-  
gardless of cost and thereby went on  
record as indorsing the recom-  
mendation of Henry A. Pressey on Spavi-  
naw creek as a source and the engi-  
neer's recommendation as to the sys-  
tem to be installed.Motion to the effect the vote be  
taken as an expression of the club as  
a whole, was made by Colonel Carl  
Magee and carried at once. When  
H. M. McFarlin, president of the  
chamber of commerce, called for the  
vote approximately 95 per cent of  
those present arose. No one stood up  
at the call for those opposed.This expression is considered to be  
one that will carry considerable in-  
fluence with public sentiment as  
coming from a body wherein are rep-  
resented Tulsa's leading citizens,  
heaviest taxpayers and most influ-  
ential business men. Without a  
doubt this expression is of para-  
mount importance to Tulsa's future  
as dealing with the most vital ques-  
tion of the city.

peals Against Maintain-  
ing of Prejudice.

## ASKS LEAGUE PROVISION

Inclusion in Constitution Is  
Necessary He Tells So-  
ciety in New York.

## WOULD NOT USE ADVANTAGE

His Country Would Not Alter  
Policy Toward U. S.,  
He Says.NEW YORK, March 14.—Action  
by the peace conference to eliminate  
race prejudice, which he termed "a  
fruitful source of discontent and un-  
easiness among nations in the past,"  
was urged by Viscount Ishii, Japa-  
nese ambassador to the United  
States, speaking before the Japa-  
nese society here tonight. "Nothing  
would contribute more effectively to  
the foundation of permanent peace,"  
he declared, "than application of a  
proper remedy, at this opportune  
moment, to this cause of interna-  
tional discord." The constitution of  
a league of nations, he added, would  
not be worthy of the conference if  
it omitted a provision to right the  
"conspicuous injustice" arising out  
of prejudice between the races.The ambassador indicated that if  
this were done Japan would not take  
advantage of such a provision, but  
would adhere to her "gentlemen's  
agreement" in the matter of emigra-  
tion of Japanese labor to the United  
States and await the time when by  
"gradual evolution" the problem  
would be settled to the mutual satis-  
faction of both countries.Would Not Take Advantage.  
The restriction of immigration to  
America, Viscount Ishii cited as Japa-  
n's "fixed policy," despite the  
treaty rights of her nationals to free  
entrance and residence in the United  
States, and said he hoped this policy  
as "abundantly attested by her  
past record," would "disarm any  
alarmist and unwarranted view  
pointing to the probability of Japan's  
taking advantage of the coveted ar-  
ticle in the league constitution.""Nothing would be farther from  
Japan's thought," he continued,
